FOR IMMEDIATE RELEASE

CRUISE CAR BROADENS ITS BASE

New Dealers Added for Sale of Solar-Powered Electric Transportation

Cruise Car, Inc., Sarasota, FL, has recently added new dealers in California, Texas, Louisiana, Florida and Arizona to sell its line of solar electric vehicles. The company continues to look for new dealers interested in offering customers a uniquely styled, environmentally-friendly and energy-saving mode of transportation for the golf course, at the marina, in the neighborhood or around town. In addition, Cruise Car is negotiating with international companies interested in distributing the full line of Cruise Car vehicles, including the SunRay.

“We’re excited by the overwhelming response in our quest to get the Cruise Car solar Sunray, solar Kudo and Classic model electric vehicles in dealerships throughout the United States,” says Ken Chester, President of Cruise Car. “Cruise Car’s innovative solar vehicles are popular because they overcome the challenges that lie ahead with fuel consumption and provide an eco-friendly alternative. Our unique design coupled with the solar models set us apart from the competition.”

Cruise Car is the leading manufacturer and distributor of solar-powered electric vehicles in the U.S. For more information about the complete line of electric vehicles, distributorship or for a dealer near you contact Cruise Car by phone at 941-929-1630, via email at info@cruise-car.com or online at www.cruise-car.com.
